## Covert Wall Mount NVR

N-Box

Our wall mount NVR Series offer a plug-and-play, tamperproof alternative to conventional desk mounted components. This all-in-one package includes a 4 or 8 channel Ganz PixelMaster NVR and a 1080p HD monitor housed in a rugged steel lock box with cooling fan, all powered by a single 120VAC power plug. This space-saving unit can be mounted out of the way, but is always accessible through a network connection on a PC or mobile device. It is also ideal for commercial locations not suitable for exposed electronics. When needed, the hinged door serves as a table top with mouse pad to review or archive video locally. The enclosure is designed to look like an electrical box, making it unrecognizable as a recording device.

Monitor is mounted on a hinged panel for easy access to NVR.

Features:

- Ideal for Discreet Retail or Commercial Video Surveillance
- Available with 4 Ch or 8 Ch PixelMaster Embedded NVR
- 22" LED 1080p Monitor on a Hinged Panel for Easy Access
- Plug and Play with any PixelPro IP Camera up to 1080p
- Built-in Fan and Vents Provide Cooling
- USB Mouse, Remote and USB Flash Drive Included
- Built-in Power Strip with Detachable Power Cord

CBC (AMERICA) Corp.

4 Ch or 8 Ch Ganz PixelMaster Embedded NVR

Cooling Fans

Pre-drilled holes for wall mounting (16" width)

Easy archiving with USB Port Extemder

Single 120VAC power connection with on/off switch

Hinged door with key lock

■ N-Box Models

N-Box Model	N4LWM-2TB	N8LWM-2TB
Embedded NVR	4 Ch NVR	8 Ch NVR
HDD (1 additional HDD can be added)	2TB	2TB
Fans	115V	
Power Strip	120VAC (Single unit powers all internal components)	
Lock Box Construction	Steel with powder coat finish	
Mounting	4 Pre-drilled holes for wall mounting (16" width for stud mounting)	
Dimensions	23.5"x 15" x 15.8"	
Weight	37 lbs (42 lbs with packing)	

It is recommended the NVR be wall mounted at either a desk or counter height so that the monitor can be viewed at eye level with comfortable operation of the USB mouse from a sitting or standing position. The components inside the unit are finished products and are easily interchangeable if needed.

■ Embedded NVR Specifications

- 1080p recording, efficient H.264 compression
- Video access via web & mobile devices
- Built-in PoE switching HUB
- Automatic router port forwarding

- Full HD GUI
- Monitoring for fan failure & temperature
- HDD failure notification
- Plug & Play PixelPro IP cameras with no configuration required

N-Box Model		N4LWM-2TB	N8LWM-2TB
PIXEL MASTER Embedded NVR	**Ganz PixelMaster**	NR4HL-2TB	NR8HL-2TB
	Channels / HDD	4 channel, 2TB HDD	8 channel, 2TB HDD
	Display	HD 1080p 120 FPS	HD 1080p 240 FPS
	Input	4 IP Camera (max 1080p)	8 IP Camera (max 1080p)
	Recording Speed	up to 30 FPS at 1080p	
	Recording Resolution	1080p, 720p, 704x480, 352x240	
	Power	12V Adaptor for NVR, 48V Adaptor for PoE	
	Power Consumption	20W (without HDD)	

See the Ganz PixelMaster Embedded NVR specifications for more detailed product information.

■ Monitor Specifications

N-Box Model		N4LWM-2TB	N8LWM-2TB
1080p LED Monitor	Monitor Model	LED-22	
	Size	22"	
	Resolution	1920 X 1080 @ 60Hz	
	Inputs	HDMI, DVI, AV Audio (HDMI)	
	Power	12VDC/100-240VAC, 50/60Hz	
	Power Consumption	Power on < 36W / Power Saving Mode < 0.5W
